The image shows the cover art for the EA Sports Tiger Woods PGA Tour 2005 video game. At the top, the Xbox logo is displayed with "LIVE" below it and "ONLINE ENABLED" to its right. The central figure is Tiger Woods, wearing a cap and looking intensely at the viewer. He is holding a golf club in his right hand, which is positioned towards the bottom right corner of the cover. A large circular logo in the lower right corner contains the EA Sports logo (EA in red, SPORTS in blue) and the title "TIGER WOODS PGA TOUR 2005". Below the title, the PGA TOUR logo is visible. In the bottom left corner, there is an ESRB rating label that says "EVERYONE" and "CONTENT RATED BY ESRB". The background features a grid pattern and some bright highlights.

ABOUT PHOTOSENSITIVE SEIZURES

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms.

Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting further from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

OTHER IMPORTANT HEALTH AND SAFETY INFORMATION

The Xbox video game system documentation contains important safety and health information that you should read and understand before using this software.

AVOID DAMAGE TO YOUR TELEVISION

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

COMPLETE CONTROLS

Master these five simple steps and you'll be well on your way to becoming a legend on the links.

STEP 1: SET UP THE DRIVE

NEW BALL IN STANCE (BALL POSITION)

Where you stand in relation to the ball while swinging allows you to fine tune every shot. Greater trajectory and less roll are achieved with a forward stance, while moving back results in lower trajectory and more roll.

STEP 2: SWING

Move straight back to begin your backswing—the closer you get to the peak of your backswing, the closer your swing will be to 100% power

Move back diagonally and move up in an opposite straight line to draw or fade the shot.

4

STEP 3: CONTROL THE BALL IN-FLIGHT

Press while moving ① in the direction you want to put spin on the ball—the more times you press, the more spin you'll achieve. You cannot spin the ball out of the rough or sand when playing under TOUR Difficulty (see p. 7)

STEP 4: SHORT GAME

To stay in the hunt consistently, you'll need to work on your short game.

USING IRONS AND WEDGES

Pull out an iron when you need precision more than power. Be sure to shorten your backswing if the club's potential power is more than the distance of the shot. For example, if your pitching wedge can hit the ball 90 yards, but the pin is only 45 yards away, only use half of your backswing.

RECOVERING FROM HAZARDS

Even the legends find themselves in deep rough or a sand trap every now and then. Being able to recover from such lies is crucial to saving par. Make sure you check the current lie before shooting (see *Game screen* on p. 7). If your ball is buried more than half way, you'll want to use much more club than you normally would.

CHIPPING CONTROL

When you're just off the green, a chip shot may be your best option. Adjust the targeting marker based on the distance to the cup and the undulation of the green, and then chip away.

STEP 5: PUTT

SET UP THE PUTT

Ideal putting line:
the camera shows the perfect line of the putt

SINK THE PUTT

Maximum putting power is determined by the location of the targeting marker. The key to good putting is to move back and to follow-through cleanly to strike the ball well

NEW TIGER VISION

Now, you can line up puts the way Tiger Woods does. You are only allowed to use Tiger Vision a certain number of times in a round because it gives you such a great chance at making the putt. Just line up your targeting marker to the spot provided by Tiger Vision, and the putt is as good as sunk.

SHOT SELECTION

Sometimes the default shot type is not your best option in a given situation. For example, if you're under some trees, your best shot type would be a punch shot. The following are descriptions of the six shot types:

Full	Set up a full swing with the selected club.
Punch	Produce a low-trajectory shot to minimize the effects of wind, or to shoot from under tree cover.
Pitch	Place the ball on the green with minimal roll from up to 59 yards away.
Flop	With a higher trajectory and less roll, this wedge shot has a maximum distance of 50 yards. Use it to fly over obstacles or to stick the ball on the green.
Chip	A useful shot when you are too far away for the putter.
Putt	When on the green, you putt the ball along the ground to the cup.

SETTING UP THE GAME

Compete against the best players in the world on 11 authentic courses from the PGA TOUR, as well as three original design courses. Challenge other golfers in more than 20 different golf formats.

PLAY NOW

When playing for the first time, the Play Now feature provides a tutorial on everything you need to know to play with the pros. To play other game modes, you must pass the first test. Once you've completed the tutorials, Play Now launches the next event in your quest to becoming a Legend.

NOTE: Once you've completed the tutorials, you won't be prompted to play the tutorial again upon boot up, but you can find it under Traditional Games for later reference.

NOTE: Press to bypass the tutorial and go straight into Legend Pursuit or other Game Modes.

NEW TOUR DIFFICULTY

Early in your career, you'll unlock the new TOUR Difficulty mode, which allows you to play at a much higher level of difficulty. From challenging you to read the course without help, to requiring you to stay consistent with your swing, TOUR Difficulty makes you reconsider aggressive shot taking. Your reward for playing with TOUR Difficulty ON is increased earnings for every match you win and the prestige and satisfaction of playing at the highest level of competition.

PLAYING THE GAME

The only way to shoot scores like the pros is to review and understand everything on the screen before each shot. One lapse in concentration can cost you a match.

MY LEGENDS PURSUIT

The fastest way to solidify your status as a golfing legend is to take on the legends themselves like Jack Nicklaus, Arnold Palmer, Ben Hogan, Seve Ballesteros, and Gary Player.

LEGEND TOUR

You'll have to earn the right to play against the all-time greats by working your way through a series of challenges against real-life and fantasy golfers on regular, Tiger Proofed (see p. 9), and Compilation Courses.

- ❖ Winning matches in Legends Tour is a great way to earn some serious cash and Legend Coins (see p. 9).

LEGEND SCENARIOS

Each of the five legends in *Tiger Woods PGA TOUR 2005* is famous for certain attributes. Earn cash and medals by completing a series of scenarios tied to those attributes. For example, Seve Ballesteros is known for his recovery skills, so his scenarios test that aspect of your game.

PGA TOUR® SEASON

For the first time, up to four players can compete in the PGA TOUR Season mode, with one player owning the Season and the other three players playing as guests. You can play through ten full seasons, each complete with leaderboards and stat tracking.

- ❖ Guests can only earn cash and stats.
- ❖ If guests win a tournament, it does not apply to their own season.
- ❖ Guests cannot be added after the first round or after they've been removed, and they can't be changed once a tournament is in progress.

MY DREAM 18

Here's your chance to create the ultimate golf course. With the Legend Coins you earn in various game modes, purchase any unlocked courses, and then buy course customizations for them using Tiger Proofing (see p. 9).

- ❖ When your course is complete, you can take it online and challenge other players.

DREAM 18 PRESTIGE LEVEL

Build your course hole by hole, steadily increasing the overall prestige of the course, which in turn attracts legends. Make it tough because the legends won't waste their time playing on an easy course.

- ❖ Keep track of your Dream 18 Prestige level on the Summary screen.

DESIGN SECRETS

Opponents you defeat offer tips about what they look for in a course. Apply these secrets to your Dream 18 to increase the course's prestige, and the legends will come calling in no time.

ALL-NEW TIGER PROOFING

For the first time, you can create courses that even Tiger Woods will fear. Cash in Legend Coins (see below) to modify any of the available courses in the game to create the uniquely challenging course you've always wanted. From lengthier Tiger Tees, narrowed fairways, sculpted greens, massive bunkers, deep rough, and much more, the possibilities are endless.

To Tiger Proof a course, simply choose the course you want to modify, then alter any of the course's features by using the sliders. You can watch the impact of your changes on-screen as you move the sliders. Here's a description of the some of the sliders. The others should be self explanatory.

WET/DRY

Fairway and Green	Wet indicates slow conditions (less roll); Dry speeds things up (more roll).
Bunker	A wet bunker produces better sand lies; a dry bunker is more receptive for "plugging" the ball deep in the sand, which results in difficult lies.

UPKEEP

Fairway, Green, and Rough	Changes the course from pristine to terrible. The lower the upkeep the better the chance of the ball taking an unfavorable or random bounce.
---------------------------	--

FOLIAGE DENSITY

Environment	Modifies your chances of the ball colliding with branches or leaves. Your odds of getting hung up in the trees are greater as you increase the slider.
-------------	--

Once you've modified the course to your liking, save it. It's then available for play from then on in all Traditional game modes. When you see the TW logo on the loading screen, you'll know that hole/course has been Tiger Proofed.

LEGEND COINS

This is the currency needed to purchase course modifications. You earn these tokens by successfully competing in certain game modes.

GAME MODES

From the traditional to the not-so traditional, each of these game modes give you a chance to keep the game fresh and mix it up on the links.

TRADITIONAL GAMES

Play by yourself or take on your friends in these eight traditional game modes. Each game is described in detail when highlighted on screen.

REAL TIME EVENTS

During the calendar year, you can participate in special events on select days such as player birthdays and holidays. Some events may also unlock various Pro Shop items.

NOTE: Real time events are based on your Xbox Dashboard settings for date and time. Please see the documentation that came with your Xbox console for more information regarding Xbox Dashboard settings.

BATTLE GOLF

This is a Match Play game where the winner of each hole is allowed to remove a club from his opponent's bag or add one back to his own. The golfer who wins the most holes is declared the winner.

SKILLZONE

Each of the five SkillZone games has three challenging environments where you can earn cash while showing your pinpoint skills off the tee.
